SUMMARY

Experienced front-end developer with a passion for helping others, clean code and great UI/UX psychology. I enjoy working collaboratively but can also run with projects on my own. Looking to leverage my experience building responsive and scalable web apps to solve interesting problems that delight end-users.

EXPERIENCE

FREELANCE FRONT-END DEVELOPER

NMR Events | Remote | August 2020 - Present

- Collaborating with senior engineers, developers and designers in architecting, evaluating, improving and implementing virtual events demo website for various finance, marketing, healthcare and education corporations.
- Translating static designs into interactive elements of web products and computer applications using HTML, CSS, Bootstrap, JavaScript, jQuery and third-party platforms.
- Checking design and development against client requirements and make sure the output addressed the requirements.
- Handling last-minute changes to project requirements professionally and edit designs and code as needed.

FRONT-END DEVELOPER INTERN

Y-Labs Ventures | Remote | March 2021 - June 2021

- Assisted senior colleagues in developing designs for web products and converting designs into interactive web elements using HTML, XML, CSS, JavaScript, React, Material Design and Android Studio app.
- Relayed information between the members of the team of designers and developers according to the instructions of the team leader.
- Project built through Agile Development including weekly meetings between the Director, Software Engineering and Design teams and daily action item tracking via Trello.
- Gained experience in Mobile web development and debugging Android studio app to improve website performance and user experience.

Arizona State University

2017

LEAD PRESCHOOL TEACHER

Childcare Network Inc | NC | January 2018 - April 2019

- Improved academic performance by diversifying teaching techniques and adopting technological advancements which saw a 20% increase in student engagement.
- Worked with teaching staff to evaluate individual progress and recommend appropriate learning plans.

LEAD TESOL TEACHER

Yapracik Koleki | Turkey | June 2016 - October 2017

- Improved instruction methods by using various assessment tools and strategies such as ClassDojo, Google Classroom, Quizlet, Prezi and Khan Academy which increased ESL students' communication levels by 30%.
- Collaborated with teachers and department heads to meet quarterly and yearly educational goals.

LATEST PROJECTS

RESHOP

Project Link - <https://fullstack-reshop.herokuapp.com/>

- Conceptualized, designed, and built a full-stack shopping application using React, React Hooks, Axios, Tailwind CSS, JavaScript, Node, Stripe Payment Integration and REST API.
- Customized user's shopping experience by allowing user's to add and remove items in their cart and having an easy-to-access cart info.

GOTTALOTTO

Project Link - <https://malekandgrace-gottalotto.vercel.app/>

- Created the projects wireframe, screen inventory and user flow layouts that outline the specific size and placement of page elements, site features, conversion areas and navigation for the application.
- Worked with team members to plan website development, converting mockups into usable web presence with HTML, CSS, JavaScript, React.js, Node, PostgreSQL, and Cron Job.

JOT

Project Link - <https://gracebodur.github.io/jot/>

- Planned, designed, implemented, developed and converted mockups into usable web presence with HTML, CSS and JavaScript.

QUIZAPP

Project Link - <https://gracebodur.github.io/covid-19-quizapp/>

- Managed full-cycle design and development tasks, handling all phases from conception to completion while maintaining guidelines throughout. Built with HTML, CSS, JavaScript and jQuery.
